- UI/UX Design
- Frontend Development
- Mobile App Development
- Unity Game Design

AREEBA ANJUM

Software Developer & UI/UX Designer

PROFILE SUMMARY

Computer Science student with a focus on building clean, user-centric software solutions. Skilled in translating visual concepts into interactive digital experiences. Passionate about problem-solving and modern web technologies.

EDUCATION

Bachelor of Science in Computer Science

Arid Agriculture University | 2023 – Present

Currently in 6th Semester. Core focus on Software Engineering, Database Systems, and Mobile Programming.

FSC Pre-Medical

2021 – 2023

KEY PROJECTS

Food Delivery Mobile App

Engineered a modern mobile application using Kotlin, focusing on efficient user flows and responsive UI layouts.

Ninja Runner (Unity Game)

Developed a 2D game in Unity using C#. Implemented physics-based mechanics, asset management, and interactive menus.

Figma Platform Prototype

Designed high-fidelity mockups for a food delivery service, ensuring accessibility and consistent branding throughout.

TECHNICAL EXPERTISE

- Experienced in managing virtualized lab environments (VMware/ VirtualBox).
- Familiar with Kali Linux for security and reconnaissance labs.
- Proficient in version control using Git and GitHub.
